BOT REPORT...

TE PĀNUI O TE POARI / THE BOARD NOTICES

In a recent webinar with Education Minister Erica Stanford regarding the curriculum changes coming into effect 2025, Boards were assured that our teachers would be supported with any additional training to roll out their new education expectations, and this could mean teacher only days during term time in 2025. She also assured us that our current Board objective of *Giving Effect to Te Tiriti o Waitangi* would not be changing. This was asked in light of questions regarding proposed changes to the Education and Training Act 2020 and the Act Party Treaty Principles Bill.

It's a tricky time to be a teacher with the government making changes, including recently cancelling funding for the Te Ahu o Te Reo Māori programme. This programme supported kaimahi/staff to not only learn Te Reo Māori, but also protocols/tikanga that would support all our children/tamariki to thrive in Aotearoa. This cancellation was to redirect funds to the maths curriculum refresh. Having listened to the Minister's reasons for making these changes and the data that has driven the government to make these changes, it's hard to argue. If the poor education outcomes across the motu/country in reading, writing and maths are correct, then this refresh is clearly needed. However, for schools like Lynmore who are already achieving great results while also supporting arts, science, physical education, environmental studies, robotics (and the list goes on), these changes can feel more disruptive than helpful. Hearing the Education Minister speak and listing her rationale only made us value our Lynmore staff more. This amazing group of people continue to provide an excellent, well-rounded, personalised and localised education experience for your tamariki.

This is evident in our Strategic Plan review, which you will also find in this newsletter. In reviewing the goals we set in January this year, it was clear to us that our staff are already over achieving in areas that the Ministry of Education are concerned about. This review should be done annually and shared with our school community for feedback. Please feel free to email us your thoughts at bot@lynmore.school.nz. We love hearing from our school whānau as it helps to ensure we are representing your voice.

BOT REPORT...

TE PĀNUI O TE POARI CONTINUED

As for the curriculum refresh and any other changes coming, we know #TeamLynmore are up to the challenges thrown at them and will take all new information and training and adapt things to do it the Lynmore way.

At our recent Board hui we also discussed the many property challenges we have, including our prefab classes near the field, which we know are near the end of their life. Our caretaker team continues to come up with creative ways to manage these spaces and our teachers will utilise outdoor spaces (including our wonderful new shade sails) where possible in the warmer weather. We have included these classrooms as one of our most urgent remedial works with the Ministry of Education in our recent 10 year property planning. Please be assured that the many property challenges we face are all being assessed regularly by Whaea Hinei and reviewed monthly at our Board Property and Finance hui. This includes the gym restoration (no start date on remedial work yet) and some structural improvements to our admin block. Our parking and road safety sub-committee continues to look for solutions to improve the start and finish of our school day. The safety of all our tamariki is a key objective for us.

Term 4 is going to fly by with end of year shows, prize-givings, sports events and whānau engagements. We will all try to live in the moment and enjoy the rollercoaster. We hope you all stay safe and well and enjoy the chaos of the lead up to the festive season.

Screening for students...

As a school, we are working to remove as many barriers as possible that impact on student learning.

Within our school, this looks like carrying out on-going screening to look at characteristics relating to various needs (including, but not limited to, dyslexic characteristics, reading, writing and math barriers, Irlens characteristics and auditory/visual characteristics).

If any characteristics or barriers from these screens need to be further delved into, we will be in contact with you.
